

MAS PETRA

General Description:

MAS PETRA is a water base and prestigious decorative paint with particulars and monochromatic effect. Easy application helps to redecorate houses, villas, offices and commercial places.

Major Uses:

Best applied for interior and exterior walls.

Characteristics and Physical Properties:

Appearance	Coloured paint
Specific Weight	1.20 kg. / lit.
Dilution	Ready to use (you can add 5-10% if needed)
Coverage	8 m ² /litre
Drying Time	3 – 4 Hrs. at 20 ⁰ C
Resistance	Good resistance for abrasion once hardened
Washability	Good after hardened using water and normal detergent
Stability	Approximately – 1 – year min. into the packaging.

Application Procedure:

Make sure that the surface is dry and firm. If old paint is present, remove any peeling parts and other materials with fewer adherences.

Numerous layers of lime or peeling paints must be removed completely. Level uneven surfaces using MAS PVA Wallfiller. On a dry surface apply MAS Masonry Primer to provide an ideal support for application.

Apply MAS PETRA onto the dry base with a specially designed brush or roller.

Decorating with MAS PETRA as part of integrated system that requires an additional 5-10% MASCRYL (any choice of colour)

Packaging:

Normally 4 kg, and 20 kg in plastic bucket are available upon request.

Colours Availability:

- Neutral base
- Addition of 5-10% of required color of MASCRYL

Physiological Hazards:

MAS PETRA is water-based paint, nevertheless, good ventilation in working rooms is recommended as well as the use of safety tools and equipment. MAS PETRA is harmful if swallowed. If contact with eyes or skin occurs, wash well with fresh water and seek immediate medical advise.

The above information is given to the best of our knowledge based on laboratory test and practical experience. However, as the paint is often used under condition beyond our control, we cannot guarantee anything but the quality of the paint itself. We reserve the right to change the given data without prior notice.
